

The Project

La dynamique du geste Virtual Solo exhibition by Kerstin Kager

Following the sanitary restrictions due to Covid-19, all cultural events have been reported and we had to adjust to new ways to promote art and allow it to be again in our lives, to re st/ART !

Entering in a 2021 still uncertain and hoping that the conditions will let us be able to organize soonest in presence exhibitions, we have planned a new online version art project to offer the possibility to artists, collectors, art lovers, to appreciate Art right from the comfort of their living room.

This exhibition, curated by **MG Paris**, brings you closer to the artist and intends to highlight her artistic path and is proposing artworks of different series varying with the single themes approached, in different techniques, media and dimensions, but all realized through a very huge and powerful ability in using the "la dynamique du geste", her mastery over the gesture, the special skill allowing her to express her art through the only dynamic lines on the canvas.

Clicking through the Room, you are introduced in Kerstin's world. Take a virtual walk and have a look at the single artworks.

Follow her creative process and appreciate in the first wall a new project for 2021 under the sign of animals with a brand-new series that follows the "toro in sand" of 2019. The animals are worked with a very interesting technique mixing sand and Indian ink.

In the second wall you can appreciate the Indigo series painted on canvas in 2019 in minimalistic style, reducing other colours to Indigo to express the dynamic and movement.

In the third wall the Music series, all works of paper realized in 2020, dynamic lines to underline the rhythm and the movements to feel the melodies played by the musicians, to let us get into the grove.

In the fourth wall again a very bright colour in the Gold series paintings on canvas, where the themes are uniting Gold with the traditions of her country

In the fifth wall, The Ink collection, ink of China on paper artworks, created in 2020 during the lockdown periods with the aim of reducing and minimalizing without losing the characteristic of the subject: less is more in reducing the subject a maximum.
